1. Course Overview	
Full course/award title(s)	BA (Hons) Fashion Marketing BA (Hons) Fashion Marketing with Integrated Foundation
Course Code	UBAA_0011_FR
Fees	Please see the tuition fees on the Regent's University London website (https://www.regents.ac.uk/admissions/tuition-fees)
Location of study	Regent's Park
Off campus elements / locations	
Awarding institution	Regent's University London
Course entry points	September 2023, January 2024
Date of original validation / revalidation	November 2022
Validated until	September 2028
Framework for Higher Education Qualification level of final award	Level 6
Number of credits in award	360 credits
UCAS codes	List all course titles and UCAS codes, including options with Integrated Foundation. Codes are available at: (Registry will provide link in due time)
HECoS Code	Insert HECoS Course Code as agreed
Relevant QAA subject benchmark statements	Quality Assurance Agency (QAA) benchmarking statements: Art & Design, 2020.
Other external and internal references	QAA Framework for Higher Education Qualifications (FHEQ) Regent's University London Academic Regulations Regent's University London Learning, Teaching and Assessment Strategy

	<p>Regent's University Learning Outcomes (RLOs) (2021)</p> <p>Regent's Assessment Framework (2022)</p> <p>AdvanceHE Principles of Inclusive Curriculum Design</p> <p>Regent's Learning Design Framework: RADAR (2020)</p>
Professional, statutory or regulatory body recognition/accreditation	None
Mode of study (Full Time / Part Time)	Full time
Language of study	English
Minimum / Maximum duration of course for each mode of study	<p>Part time: N/A</p> <p>Full time:</p> <p>Minimum - 4 years including the integrated foundation (level 3)</p> <p>3 years without the integrated foundation (level 3)</p> <p>Maximum*- 6 years including the integrated foundation (level 3)</p> <p>5 years without the integrated foundation (level 3)</p> <p>* In exceptional circumstances only – refer to Regent's University London Academic Regulations for details</p>
Date of production / revision of this course specification	June 2024

2. Why study this course, including course aims and objectives

F&D Ethos

Fashion & Design is a creative and entrepreneurial community, where students benefit from continual skill development and creative problem solving.

By applying theory and practice in real-world environments, students acquire the tools to take ownership of their own learning. We nurture individuality and experimental, reflective, and ethical practice.

Overview of Fashion Marketing:

The BA (Hons) Fashion Marketing course offers the opportunity to explore the dynamic and fast-paced fashion marketing landscape, both in theory and in practice. Thanks to our unparalleled central London location and strong emphasis on forging links in the industry. Our aim is to produce graduates with an excellent understanding of fashion marketing, who possess skills in confident communication and in creative content production. We encourage our students to apply knowledge of fashion marketing principles not only to the ideation of innovative solutions, but to creatively realise aspects of those solutions. All of this is enhanced through Regent's commitment to a personalised and practical education for innovators, entrepreneurs and future leaders. Building interdisciplinary skills necessary for the future of work within the numerous specialist electives open to students.

Our Pillars

- Creatively applied
- Interdisciplinary informed
- Industry and enterprise informed

On this practical course you will explore fashion marketing through investigating international brands. Briefs are devised to allow for individual students' creative scope, whilst building key skills to progress into industry. You will develop academic knowledge of marketing principles, investigating how brands employ creative marketing tactics in many forms. Through digital media and production workshops, you will put theory into practice by realizing campaign content. You will also enhance your research skills ready for industry, through analysing culture and determining trends, to develop your criticality.

You will work on practical projects including:

- Photoshoots and moving image
- Campaign content creation
- Branding assets
- Publications and zines

Throughout the programme, students will have the opportunity to hear about fashion marketing practices from industry professionals. The programme has connections with a range of fashion companies and other fashion organisations. You will study in the heart of London, world-

renowned as a fashion capital. Our campus is close to a range of companies, retail hubs, museums and galleries, which you will visit as part of the programme. The course places a keen emphasis on an appropriate balance between theoretical and academic standpoints and 'real-life' industry applications and contexts.

Programme aims:

In our foundation year, students will be encouraged to establish the required components of creative marketing. In the first year, students will equip themselves with the skills and awareness to identify and explore marketing principles and creative asset production alongside developing skills in research and analysis. In the second year, they will expand those skills developing strategic and creative solutions to problems. Finally, in the third year, students will be encouraged to create and curate their own future facing strategies with resolved creative assets, linking these to their own career aspirations.

The programme aims to:

- Offer a comprehensive knowledge and appreciation of contemporary fashion marketing, with a strong emphasis on creating practical outputs.
- Develop understanding of contemporary issues surrounding fashion within the industry itself, and within its wider contexts.
- Enable the development of a strong eye for contemporary and future fashion, with the ability to generate a wide range of outputs pertinent to the contemporary fashion and lifestyle industries.
- Encourage the development of independent thinking, through review, reflection, and evaluation of personal and professional practice in relation to fashion and the wider creative industries.
- Enable development and application of individual strengths and interests.
- Develop theoretical, practical, and transferable skills to enable pursuit of professional careers in the fashion industry or on post-graduate courses.

Prospective careers

This programme gives you skills and experience across a range of marketing activity. Our graduates go on to work in a range of fashion marketing areas including:

- Advertising
- Brand management
- Buying
- CRM
- Digital marketing
- Event management
- Fashion entrepreneurship
- Fashion styling
- Fashion media and communications
- Fashion production
- Marketing

- Merchandising
- Personal shopping
- Public relations
- Retail operations
- Social media and influencer relations
- Trend analysis

3. Course structure

This is a guide to the overall structure of your course, mandatory elements, modules (noting the terms that they are completed), and periods of assessment.

We have designed our curriculum so that you can gain a deeply personalised education. The BA (Hons) Fashion Marketing is built on latest academic thinking, informed by in-house research. You will expand your knowledge, skills, practice and thinking with three building blocks to make you a great practitioner:

Subject Core: You will gain deep expertise in fashion marketing through a range of specialised modules that aim to develop your understanding of different fashion marketing contexts and creative content planning and production.

Level 4 (Year 1) Subject Core:

Our 'Fashion Marketing Principles and Practice' module in the Autumn semester is designed to introduce you to the fundamental principles of fashion marketing from an academic standpoint. Including the role of marketing in creating competitive advantage within the fashion industry. You will develop knowledge of the marketing environment and enhance your skills of analysis and evaluation. This module is complimented by our 'Fashion Images' module also in the Autumn semester which forms the foundation of your creative and asset creation skills whereby you will analyse visual created by fashion brands for marketing communications and promotional contexts.

'Fashion Society and Culture' and 'The Fashion Consumer and Trends' modules both in the Spring semester aim to develop your research skills further, introducing you to research methods and critical analysis applied to different but complimentary contexts, analysing culture and fashion's role within it and the dynamic interplay of cultural influence and influencers that macro trends comprise.

Level 5 (Year 2) Subject Core:

In second year you will consolidate your learning and develop a deeper understanding of key facets within fashion marketing through Autumn semesters 'Fashion Marketing Communications' and 'Fashion Branding' modules. Both modules are complimentary and develop strategic knowledge within these functional areas including the creation of brand guidelines and their application through the realisation of different types of creative assets.

In the Spring semester you will be challenged through the singular core module to bring your increasing interdisciplinary knowledge into play. The 'Innovation in the Fashion Environment' module aims to question retail concepts and develop students' knowledge of complex contemporary consumer journeys solving consumer-based problems in the challenging retail sector.

Level 6 (Year 3) Subject Core:

Throughout the course you will have developed both knowledge and skills in fashion marketing, research and analysis, and creative production. This final year encourages you to draw upon your increasing interdisciplinary knowledge as well as the skills learned within the Industry and Enterprise elements of the course to create future facing solutions and define your own path in the fashion and lifestyle industries. This starts with 'Fashion Futures' in the Autumn semester which works in conjunction with 'Final Major Project I' challenging you to use your critical analysis skills interpreting cultural phenomena to define a macro trend and produce market research to support that trend. The Spring semester offers you the opportunity within 'Professional Practice and Portfolio' to consolidate your previous Industry and Entrepreneurship skills to help you to consider your future career options or postgraduate study through the creation of a portfolio of work alongside a personal development plan.

At the end of the year, you will have the opportunity to participate and showcase your work to an audience of fashion professionals, family and friends at our Graduate Fashion Showcase.

Industry & Entrepreneurship: Each level of your study includes a learning component that enables you to discover and plan your professional goals:

- During the Spring Semester of Level 4 (year 1) you will take the module "Exploring Industry and Entrepreneurship" you will explore the world of work, within the fashion industry and its future with a view to informing your own potential career or entrepreneurial journey. You will be supported by experts in the Careers, Enterprise and Industry services and the university careers platform, Handshake.
- In the Spring Term of Level 5, you will experience a real challenge from the world of work by choosing one of three modules. If you choose "Industry Challenge" you will collaboratively work on a real-world or live industry project to project manage, research and test concepts to address the challenge. In the "Enterprise Challenge" option, you will be guided to develop your own concepts, pitch your ideas to an external panel and create an entrepreneurial plan. Finally, if you choose the "Industry Placement" module option, you will have the opportunity to acquire a range of work-based skills by taking an approved work placement.
- The Industry and Entrepreneurship learning you would have acquired in the previous two years of your studies is integrated into the final year (Level 6) Major Project. For your Major Project you will have the option to build and develop your unique idea into a full enterprise project or to engage in a more academic Major Project that has an element of Industry/professional application.

Special Electives: You will be able to choose from a range of electives that go beyond your core discipline and gain even more future-focused skills. The Special Electives take either a i) skills focus; ii) interdisciplinary focus; iii) or specialist subject focus and are designed to respond to your interests and emerging global trends. These are not tied to a specific discipline and are available to every Undergraduate student in Regent's. They

are designed to be hyper-relevant to the world we live and work in – now and into the future. In this way, you will consider your core subjects from new angles or add more value to your personal brand with a secondary discipline or language.

At level 4 you will take two electives, one in each semester. You can choose to study a language in both semesters or take “London Perspectives” in Autumn and “Global Perspectives” in Spring.

Studying a language enhances your personal and professional development. It enables you to understand and imagine new worlds and to communicate with others to build connections. We offer nine different language options: Arabic, Chinese, French, German, Italian, Japanese, Russian or Spanish.

London Perspectives will utilise London as a learning platform. Through a combination of on-campus activities and field trips to key venues, you will encounter contributions that the city and its people have made to a range of fields, including your own academic specialism. In Global Perspectives you will learn how to work collaboratively across contexts and cultures to improve the communities we are living.

At Levels 5 and 6 you will take 1 Special elective plus one Language Elective (or a further Special Elective) in each semester. Each semester offers a choice of twenty special electives at each level (see table below course structure).

In combination your experience in these three blocks will challenge your thinking in unexpected ways.

At Level 4 (Year 1), you will also take “Learning Perspectives”, a common module for all undergraduate Regent’s courses. This module will induct you to Regent’s pedagogic approach. You will acquire discipline specific and interdisciplinary skills, knowledge and approaches to learning which you will apply during your university study and beyond.

Additionally, you have the option to study abroad in the second semester of the Spring Term of Level 5 of your degree at one of the University’s international partner institutions. In this way you will immerse yourself into a new culture while expanding your knowledge and skills in your field.

Optional Integrated Foundation Year (Level 3 or Year 0)

The optional integrated Foundation year will prepare you for degree-level study, introducing the basics of your destination degree area and a range of key skills and exciting topics that will serve as an introduction to the unique Regent's degree model.

While your subject modules will be with students heading towards the same or related degree programmes, the skills and topics modules will include students preparing for a variety of degree programmes enabling you to mix, learn and co-operate with peers who will bring a range of different perspectives, knowledges and approaches to the classroom and beyond. Through that experience you will be able to bring that broader understanding back into the learning in your subject modules, just as you will experience at degree level through the interaction between your core programme and the Special Electives and Industry & Entrepreneurship modules outlined above.

In your first semester you will take a core module related to your destination degree for 20 credits alongside four shared modules covering key skills and knowledges each 10 credits. 'The Creative Designer' module focuses on creativity and curiosity. Following the design cycle from research, idea generation through to make, you are encouraged to rethink and react to the world around us. The shared modules will cover 'Writing for Success', 'Critical Thinking', 'Cultural Understanding', and 'Politics, Society and Citizenship'.

In your second semester you will again take another core module related to your destination degree alongside four shared modules covering key skills and knowledges each 10 credits. In 'The Creative in Context' module, you will begin placing your design work with increasing relevance to your chosen discipline and industry context. For part of the semester you will work collaboratively with your peers, researching and devising an ambitious design project of your choice. The Shared modules for Term 2 are: 'Communications', 'Creativity and Entrepreneurship', 'Cultural and Creative Industries', and 'Making Use of Data'.

Level 3 will provide a rich student experience to ensure that you begin your degree at Level 4 to confidently get the most out of our unique degree experience.

Your creative studies and practical demonstrations take place in the Foundation studio, which is a space dedicated for Fashion & Design Foundations students. It is fully equipped with art and design materials, computers and printers for your use. We encourage students to socialise and invent in the studio, which is a dynamic hub of creativity.

At the end of your Foundation year, with consultation with your tutors, you will select work produced during the year. This will be exhibited in the graduation show alongside graduating students' work.

When appropriate, the Fashion & Design Foundation will initiate additional activities to enrich your studies. These include visiting lecturers who introduce students to their design journey, and visits to places of interest in London, such as exhibitions, pop-up shows and collections. Teaching is concentrated. Our terms last 12 weeks and are characterised by rapid acquisition of skills and concepts. We therefore urge students to be in London and in the studio for the induction week, and to attend all sessions fully and on time.

The academic year for the course follows the regular university undergraduate calendar (<https://www.regents.ac.uk/admissions/academic-calendars>):

- Autumn Semester: September to December.
- Spring Semester January to May.

If you are a January starter on Foundation (level 3), you will be able to complete your foundation year in six months by taking a summer semester in order to complete the Foundation year by the end of July. This will allow you to start your second year of your study (first year of your degree) in September.

Classes take place from Monday to Friday, typically between 09:00 and 19:00

Assessments are scheduled throughout the academic year. Submission dates can be found on the Blackboard page of the module and the assessment brief.

If you choose to study abroad, you will do so in the Spring Semester of Level 5. Some destinations have term times that differ from Regent's University London and may start as late as March and end as late as June

Industry Placements would normally take place in the Spring Term of Level 5. They will not normally be scheduled to take place over the summer holiday period. Placement assessments are to be completed in the term in which the placement occurs..

Modules

Your course is composed of a number of modules that each have a credit value. On successfully passing each of these modules, you will gain credits that count towards the total needed for your degree.

One credit equates to 10 notional hours, which is the average time a student will take to achieve the specified learning outcomes. So if a module is worth 10 credits, then you would expect to spend 100 hours studying this. These will not all be 'taught' hours. You will receive guidance and instruction through workshops, seminars, lectures etc., but you will also need to engage in self-study. A percentage breakdown of teaching contact hours and self-study required on this course is indicated in Section 6.

On an undergraduate degree course, you can usually expect to study 120 credit per level (or year), with no more than 80 credits per term.

Course modules - Level 3/4/5/6 (Year 0, 1, 2, 3) add core module titles and amend as required (Module codes will be generated post validation)

Course Structure Level 3/Year 0

Semester	Common Modules	Credits
Autumn/Spring	FND301, Critical Thinking	10
Autumn/Spring	FND302, Cultural Understanding	10
Autumn/Spring	FND303, Politics, Society and Citizenship	10
Autumn/Spring	FND304, Writing for Success at University	10
Spring/Summer	FND305, Communication	10
Spring/Summer	FND306, Creativity & Entrepreneurship	10
Spring/Summer	FND307, Cultural and Creative Industries	10
Spring/Summer	FND308, Making Use of Data	10
Total common module credits		80
Semester	Core Modules	Credits

Autumn/Spring	<u>Fashion and Design Foundation</u> FND311, The Creative Designer	20
Spring/Summer	<u>Fashion and Design Foundation</u> FND312, The Creative in Context	20
Total core module credits		40
Total Credits for Level 3		120
Exit awards and learning outcomes achieved (if appropriate)		
There is no exit award at Level 3. Level 3 is available to students who do not meet the entry requirements into Level 4. This level enables you to bring your academic standing up to an undergraduate level as well as equip you with the necessary knowledge and skills to cope with the demands of higher education. Level 3 credits do not count towards the undergraduate degree credit total.		

Course Structure Level 4/Year 1		
Semester	Core Modules	Credits
Autumn	FSM409, Fashion Marketing Principles and Practice	20
Autumn	FSM408, Fashion Images	20

Total Credits for Level 5		120
Exit awards and learning outcomes achieved (if appropriate)		
Dip HE		

Level 6 elective module choices (special electives and/or languages) to be made during the Spring Term of Level 5. This includes students undertaking Study Abroad.

Direct Entrants Level 5 (Autumn start) – will not be able to undertake Study Abroad. Applicants wishing to undertake the Industry Placement module (IAE503) in the Spring Term will need to confirm their intention to do so during the application process and present details of their intended placement organisation for consideration. Applicants will also need to ensure that they have fully enrolled and arrived at the University by the end of Week 1 of the Autumn Term to enable placement arrangements to be finalised. Applicants who arrive after this point will not be able to undertake an Industry Placement (IAE503) and will be asked to choose either IAE501 or IAE502 as an alternative module for the Spring Term.

Direct entry Level 5 students will need to make Level 5 elective module choices from the available options immediately upon arrival.

Course Structure Level 6/Year 3		
Semester	Core Modules	Credits
Autumn/Spring	FSM609, Fashion Futures	20
Spring/Autumn	FSM610, Professional Practice and Portfolio	20
Autumn/Spring	IAE601, Major Project I	20
Spring/Autumn	IAE602, Major Project II	20
Total core module credits		80
Semester	Elective Modules (for list of languages modules or special elective modules, see below)	Credits
Autumn	Languages Elective OR Special Elective	10
Autumn	Special Elective	10
Spring	Languages Elective OR Special Elective	10
Spring	Special Elective	10
Total Elective modules		40
Total Credits for Level 6		120
Exit awards and learning outcomes achieved (if appropriate)		
BA Fashion Marketing (an Ordinary degree, without honours)		

Direct Entrants Level 6 (Autumn start) – It is not possible for direct entry students at Level 6 to undertake Study Abroad or an Industry Placement (IAE503). These options are only available for students undertaking Level 5 study with the University.

Direct entry Level 6 students will need to make Level 6 elective module choices from the available options immediately upon arrival.

Special Electives and Languages – Indicative Menu		
Please note, not all elective modules will be offered in every term, due to timetabling, resourcing and other constraints		
Semester	Level 5 Special Elective Modules	Credits
Autumn/Spring	SEL505, Creativity and Imagination	10
Autumn/Spring	SEL512, Inspiring your Audience	10
Autumn/Spring	SEL503, Being Human	10
Autumn/Spring	SEL514, Future Cities Now	10
Autumn/Spring	SEL510, Creating a Brand Identity	10
Autumn/Spring	SEL520, Why We Post: Social Media and Us	10
Autumn/Spring	SEL508, Financial Innovation and Technology	10

Autumn/Spring	ENGXB4, Business English/ ENGXB5, Advanced Business English	10

4. Exit awards

Exit (interim) awards can be conferred where:

- a) you withdraw from the University without completing all the credits required for your named award,
- and
- b) you have successfully completed the volume of credit at the relevant FHEQ level as indicated in Section 3 above,
- and
- c) subject to the decision of the relevant Progression and Finalist Board.

Available exit awards for this course are:

- Certificate of Higher Education (120 credits Level 4)
- Diploma of Higher Education (240 credits – Level 4/Level 5)
- Non-Honours Degree (Ordinary Degree) (240 credits Level 4/Level 5 and 60 credits Level 6)

The full criteria for these exit awards can be found in the Assessment and Course Regulations section of Regent's University London Academic Regulations.
regents.ac.uk/policies

Where classification of an award is possible (see Academic Regulations) this will be calculated as follows:

- Completion of 360 credits (120 at Level 4/120 at Level 5/120 at Level 6) as set out in the Academic Regulations based on Level 5 and Level 6 marks only.
- or
- For Level 5 entry, completion of 240 credits (120 at Level 5/120 at Level 6) as set out in the Academic Regulations based on Level 5 and Level 6 marks only.

or

For Level 6 entry, completion of 120 credits at Level 6 as set out in the Academic Regulations based on Level 6 marks only

5. Learning outcomes

This is a guide to the more specific knowledge and skills you will gain if you take full advantage of the learning opportunities available to you.

Learning outcomes will tell you what we expect you to know and/or be able to do once you have completed a learning process (i.e. a module, a level or the entire course) (QAA, 2018). Teaching and assessments are designed accordingly to enable you to demonstrate that you have adequately met these outcomes.

The learning outcomes that you will be expected to demonstrate at the completion of each level of your studies, are listed below. Each module that you will study, has developed 2-4 distinctive Module Learning Outcomes (MLOs). Each MLO is mapped against an equivalent Regent's Learning Outcome from the list below. We have ensured that at each level, all the compulsory elements of your course, assess in their totality all ten learning outcomes (see section 16).

LEVEL 3 OUTCOMES

RLO1 Collaboration	Determine collaboration and networking opportunities in well- defined settings
RLO2 Innovation	Recognise and describe value propositions, combining curiosity and creativity.
RLO3 Professional Development	Show the value of managing your own learning and of planning your personal and professional development
RLO4 Decision-making	Explain different ideas, including your own, as part of decision making

RLO5 Communication	Communicate appropriately for your audience and purpose in multicultural and/or international settings
RLO6 Digital Data and Tools	Choose appropriate digital tools and data to present your ideas in familiar and well-defined contexts
RLO 7 Discipline Knowledge	Explain pre-defined theories, concepts and facts in your field of study relevant to the task
RLO8 Discipline Skills	Use a limited-range of established discipline-specific knowledge, techniques and tools for practical purposes
RLO 9 Interdisciplinary Perspectives	Describe perspectives from a range of disciplines in well-defined scenarios
RLO10 Human and Environmental Impact	Demonstrate the impact of human activity on people and on the environment.

LEVEL 4 OUTCOMES	
RLO1 Collaboration	Explore collaboration and networking opportunities to generate ideas for given situations.
RLO2 Innovation	Define and compare value propositions, combining curiosity and creativity.
RLO3 Professional Development	Identify opportunities for your learning and your personal and professional development
RLO4 Decision-making	Investigate and contrast different ideas, including your own, to inform decision making
RLO5 Communication	Communicate your arguments/reasoning, orally and/or in writing in multicultural and/or international settings within familiar and well-defined contexts
RLO6 Digital Data and Tools	Use digital tools and data in familiar and well-defined contexts
RLO 7 Discipline Knowledge	Explain theories, concepts and facts in your field of study relevant to the task
RLO8 Discipline Skills	Use established discipline-specific knowledge, techniques and tools for practical purposes
RLO 9 Interdisciplinary Perspectives	Identify and contrast perspectives from different disciplines in given scenarios
RLO10 Human and Environmental Impact	Explore the impact of human activity on people and on the environment.

LEVEL 5 OUTCOMES	
RLO1 Collaboration	Collaborate and use appropriate networks to solve challenges
RLO2 Innovation	Analyse and develop value propositions, combining curiosity and creativity.
RLO3 Professional Development	Develop a plan for your professional development
RLO4 Decision-making	Analyse and reflect on different ideas, including your own, to inform decision making
RLO5 Communication	Communicate <i>effectively</i> both orally and/or in writing in multicultural and/or international settings within unfamiliar and well-defined contexts
RLO6 Digital Data and Tools	Analyse and use digital tools and data responsibly in unfamiliar, well defined contexts
RLO 7 Discipline Knowledge	Examine and apply theories, concepts and facts in your field of study relevant to the task
RLO8 Discipline Skills	Employ discipline-specific knowledge, techniques and tools for practical purposes
RLO 9 Interdisciplinary Perspectives	Investigate and apply perspectives from different disciplines in multifaceted scenarios
RLO10 Human and Environmental Impact	Analyse the impact of human activity on people and on the environment.
LEVEL 6 OUTCOMES	
RLO1 Collaboration	Collaborate and build networks to solve challenges in complex settings
RLO2 Innovation	create and implement value propositions, combining intellectual curiosity and creativity
RLO3 Professional Development	Articulate a plan which encompasses opportunities for your professional development
RLO4 Decision-making	Formulate informed decisions using critical and reflexive thinking
RLO5 Communication	Communicate <i>effectively</i> both orally and in writing in multicultural and/or international settings.
RLO6 Digital Data and Tools	Appraise and utilise digital tools and data in your professional and social contexts.
RLO 7 Discipline Knowledge	Critique and synthesise theories, concepts and facts in your field of study relevant to the task
RLO8 Discipline Skills	Combine and employ a wide range of discipline-specific knowledge, techniques and tools for practical purposes
RLO 9 Interdisciplinary Perspectives	Integrate perspectives from different disciplines in multifaceted scenarios.
RLO10 Human and Environmental Impact	Evaluate the impact of human activity, including your own, on people and on the environment.

6. Learning and teaching strategy/ assessment methods (non-regulatory)

This is a guide to the academic opportunities available to help you achieve the overall aims and objectives of the course and the intended learning outcomes in Section 5. It is also a guide to the assessment methods used to test your achievement of the intended learning outcomes. In order to meet the full intended learning outcomes of the course, you will be expected to study independently, participate in class discussions, ask for support in academic skills if required and engage with your personal tutors.

The Regent's Learning, Teaching and Assessment Strategy (LTAS) outlines the vision of Regent's pedagogic and assessment approach. It strives to provide you with a well-connected, future facing, entrepreneurial, cosmopolitan and personalised education whereby you can achieve your full potential. It comprises of fourteen priority areas:

1. take a personalised approach to student learning: finding out about their previous learning and experience, offering individual guidance to help them plan their journey through university and beyond.
2. involve students in decisions about their learning, by giving them access to a dashboard of data on their progress, explaining our teaching methods and giving students increasing autonomy to create their own educational journey.
3. enhance student research, thinking and communication skills through their specialist subjects, in a culturally diverse, global context.
4. ensure that students have the knowledge and skills to bring more than one perspective to any challenge, both through their specialist studies and through specially designed, team-taught activities to prepare them for future impact in their chosen personal mission.
5. embrace a teaching approach where students collaborate with each other and with the tutors, and where diverse learning needs can be met
6. provide learning activities which are active, often based on finding responses to real-world challenges; these activities will cross subject boundaries, and challenge orthodoxies by providing opportunities for students to explore alternative ways of thinking; they will allow students to take risks and have fun.
7. make use of flexible learning and novel on-campus space configurations to promote experimentation and discovery; and we will take learning outside the classroom, with London as an unparalleled resource.
8. provide students with tutors who are expert researchers or practitioners in their fields, who will facilitate learning, and who are engaged in continuous professional development both as teachers and in their specialist fields.
9. embrace the potential of digital technologies in supporting learning
10. enhance students' global network and intercultural communication skills, through engagement with our international partnerships and offering tuition in many different languages
11. base assessments on real-world tasks, projects and challenges, relevant to the future
12. help students develop the capacity to evaluate their own work and learning, through in class activities (in self-assessment, student-to-student assessment and academic integrity)
13. provide feedback from different sources on student work, recognising what they do well and providing guidance to help learning and improve student work
14. offer students an achievement portfolio where all their feedback is collated in one place, helping them to make sense of the feedback, and giving them something they

can take with them when they leave Regent's to build evidence they can use for future employers

Your course is premised on the Regent's Curriculum model which defines the structural design of our Undergraduate degrees and allows us to deliver the above learning & teaching priorities. Your course provides you with in-depth knowledge and skills in your field through specialised subject cores whilst at the same time it exposes you to multi-disciplinary breadth through a range of future facing special electives and language options. Additionally, it develops your professional capabilities through an integrated approach to Industry and Entrepreneurship; at each level you will take modules that enable you to explore the world of work and engage you with real work challenges.

Your course therefore actively encourages you to connect all areas of your learning and build your customised, coherent high-impact learning narrative in the pursuit of a personal and professional mission.

The Regent's Graduate Attributes express our educational purpose and identity which is to ensure that Regent's graduates are:

- Collaborative and networked
- Creative and entrepreneurial
- Critical and Reflective
- Culturally and socially versatile
- Digitally agile
- Well-informed, skilled and fluent across disciplines
- Responsible and environmentally conscious

To realise this purpose, we have articulated these Attributes into a set of ten observable and measurable university wide learning outcomes, The Regent's Learning Outcomes (RLOs). They were designed using national references to ensure that they are appropriated for the award of a UK degree and that your achievement is monitored against those national references. Teaching and assessments are designed accordingly to enable you to demonstrate that you have adequately met these outcomes.

Outline the course specific teaching and learning methods that students will encounter, why they are used and how they contribute to the achievement of learning outcomes.

Teaching on the BA Fashion Marketing programme is centred around applied learning and real-world tasks, through the production of a portfolio of creative work that you can use to enter the industry or to apply for postgraduate study on graduation.

Fashion has traditionally been taught in studio environments, while business and marketing and theory-based degrees have been taught through formal lectures. Your programme combines the best of both traditions, giving you a good combination of lecture-based teaching with seminar and tutorial support, often this is combined with activities to enhance your communication skills asking students to produce presentations. The course also places a significant amount of teaching resources on hands-on experiential learning often incorporating practical and technical workshops to create assets but also to enhance your research and critical analysis skills by doing field research in London in retail districts, galleries and museums. It also combines the best in terms of the forms that your work will take, all modules take a project-based learning approach where you

will be combining visual and text-based outputs with a focus on the creative realisation of strategic components.

You will also learn through reflection, often this will be through individual and group tutorials, we also extend this into peer reviews whereby you will provide feedback on fellow students and will critically reflect upon your own practice. We also engage in industry panel reviews where students present to key industry practitioners and receive feedback on ideas.

Breakdown of teaching methods by percentage per level

The following breakdown is a guide to how much time you will spend doing each teaching and learning method. The exact amount of time spent in taught/practical lessons or self-study will depend on the elective modules that you take.

- 'Taught' learning typically refers to timetabled sessions led by a member of academic staff, such as workshops, seminars, masterclasses, lectures and tutorials
- 'Practical' sessions are also timetabled and led by an academic member of staff, but are focused on practical work such as studio and laboratory work, field work undertaken on external site, external visits, etc
- 'Self-Study' is time dedicated to self-directed learning that is guided by your own requirements to further your studies and complete assignments. This could include preparation for class, background reading, research and preparation for assessments, and writing.

Level 3		Level 4		Level 5		Level 6	
Taught	24%	Taught	20%	Taught	16%	Taught	20%
Practical	12%	Practical	12%	Practical	18%	Practical	12%
Self-Study	64%	Self-Study	68%	Self-Study	66%	Self-Study	68%

Course management and teaching staff

The course is managed by the Course Leader and overseen by the Director of Content. Staff are, in general, educated to master's or doctoral level and have relevant industry experience. In addition, most of our staff hold a Fellowship of Advance Higher Education (Advance HE) from Fellow to Principal Fellow. We also encourage our teaching staff to undertake the Postgraduate Certificate in Higher Education.

Our teaching staff are all previously or currently practising professionals and have strong links with the fashion industry, which ensures that our teaching is kept up to date and reflects contemporary practices and the changing needs of the industry.

The design and delivery of both theoretical and practical projects are managed by Module Leaders and the wider module teams, who support your individual development of skills, knowledge and professional practices throughout the duration of the module.

You will be allocated a personal tutor, who will meet you on a one-to-one basis at various stages throughout the academic year and give you guidance and advice to support your ongoing personal and professional development throughout your studies at Regent's University London.

Assessment strategy and methods

Assessment is a positive element of your education. We are committed to delivering authentic assessment and challenge-led learning. This ambition is reflected in our new [Assessment Framework](#) where we outline the practices and expectations which will guide and enhance assessment, one of those practices being to move away from unseen written examinations as an assessment methodology and moving towards more authentic challenges. We're in the business of nurturing future leaders who can use what they've learned to shape the world – authentic assessment and real-world challenges create a safe lab for that learning.

Assessment can be a learning tool and a guide to **understand and evaluate** the quality of your work and your progress. Your course will offer a variety of assessment methods that support the learning required by the learning outcomes. We will provide you with feedback on your assessment's performance to guide your learning journey. You will play an essential part in our assessment strategy as an active feedback recipient, and we will work together to determine how you can progress further from the feedback received.

There are some differences in the purposes of the assessment you will encounter: some assessments are formative and others are summative.

Formative assessments will provide you with an opportunity to receive feedback on the progress of your work through the completion of an assessment or assessment tasks. These are developmental in nature as they offer information to help you identify next steps in learning and how to do better in future work which is why no grades are given. Formative assessments feed directly into summative assessments. All assessment tasks include formative assessment opportunities.

Summative assessment is the evaluation of your learning at a particular time, measured against specified learning outcomes. You will be awarded a grade and numerical mark for each summative assessment on each module. The grades you receive for assessed work on each module are added up to give a final grade for the module. Assessment also determines your suitability to progress onto the next year of your course and, at the end of the course, it enables the University to determine your degree award.

All assessments will incorporate effective and constructive feedback that relates to the module-specific or task-specific marking criteria previously made available in the assessment briefs. Feedback for summative assessment will explain the reason for the mark given but it can also provide information about how to improve the work for future assessment tasks.

The table below lists possible ways your tutors will facilitate the delivery of feedback on your formative assessments:

Forms of Assessment	Ways to deliver feedback on formative assessments
Written Assignments (various types)	Feedback on draft submitted on blackboard by a specified date
	Feedback initiated through peer to peer reviews during workshop activity
	Verbal feedback (face to face or recorded), where student makes a record of key points and shares with the tutor
Presentation	Presenting a practice run in class, receiving feedback from peers and/or tutor
	Formative feedback on recordings of presentation practice submitted on Blackboard by a specified date.
	Feedback on students' own assessment on the recorded practice presentation (both submitted on Blackboard by a specified date)
Creative Work	Feedback from tutors/peers through an exhibiting event. Students make a record of key points and shares with the tutor
	Feedback on student's own assessment of their work
	Verbal feedback (face to face or recorded), where student makes a record of key points and shares with the tutor

You will receive feedback in orderly and timely fashion (approximately 3 weeks from submission date). We will notify you of the feedback release day in your assessment briefs.

Assessment for your Subject Core modules is through 100% coursework, i.e. there are no written exams. Examples of coursework could include individual and group presentations, publications and zines, analysis documents, fashion imagery portfolios, brand books, strategy documents, campaign documents, graduate portfolios, essays, and reflective writing. Further details are provided in the module specifications.

If you are on a support agreement (SSA) you may be offered alternative assessments in accordance to the Guidelines of the University's Disability Guidelines for Alternative Forms of Assessment.

The course includes the opportunity to undertake a term of Study Abroad at one of our international partner institutions in the Spring Term of Level 5. You must apply and confirm your Study Abroad option during the Spring Term of Level 4. The curriculum and credits in the partner institution will be mapped to your modules as required by the course. Your Study Abroad application and learning agreement will be subject to the discretion and approval of your Director of Content or Course Leader. All grades received at an international partner university will be converted to an equivalent Regent's University London grade, in accordance with the institutional grading scale and grade conversion table. The average grade will represent 50% of the overall mark associated with Level 5.

If you choose the 20-credit “Work Placement” module in the Spring Semester of Level 5, you will be assessed according to the assessment methods specified in the equivalent module specification.

Ethical approval of research

All research and other academic activities conducted within and outside the University by students at Regent's University London should comply with Regent's ethics policies and process prior to its commencement. This will include, but is not limited to, all academic work involving human or other living participants, all industry live projects and all experiments, investigations and procedures involving human or other living participants, or data relating to such living entities.

7. Relationship to other courses

Some courses share modules or have other connections to other courses. This is a guide to whether this is applicable for your course.

Fashion Marketing is one of number of undergraduate programmes in the School of Creative & Liberal Arts. The Fashion & Design programme area includes Fashion Design, Fashion Marketing, Advertising and Interior Design.

Professionals increasingly work across boundaries between industries and the knowledge you gain in your foundation year will open your mind to working across different areas of fashion and design. It will also enable you to work more effectively with others, both as a student and once you graduate and work in industry.

At the foundation level (level 3), there are eight shared modules that are common to all integrated courses.

The Regent's Special Electives, the Language electives and the Level 5 Industry and Entrepreneurship modules are offered on all Undergraduate courses, in addition to the Subject Core modules for individual courses.

There is the opportunity for undergraduates, upon successful completion of the programme, to continue to the School's MA International Fashion Marketing, which examines the fashion marketing landscape from a wider, global perspective.

8. Student support

We want you to make the most of your time at Regent's and we also know that sometimes life at university can be hard. We can give you the support and you need, on academic study, language skills, careers, disabilities, mental health, gender, sexuality, finance and many other issues.

Regent's Student Hub will be the first port of call for the majority of your needs. Staff in the Hub can either deal with your enquiry directly or point you to one of our services for more help.

Our support services include:

- Personal tutor scheme
- Student Services
- Academic Skills
- English for Academic Purposes
- Careers advice, including placements
- Disability support
- Accommodation
- Student Union

For more information about life at Regent's and the services we offer, visit:

<https://www.regents.ac.uk/student-life>

9. Learning support

Regent's offers a variety of different facilities and technologies to support your studies. These include seminar rooms, lecture theatres, collaborative work spaces, the library, IT labs and specialist software.

The programme will be delivered on the Park campus which offers specialist teaching accommodation, including:

- Specialist Mac computer suites for both class use and open access with access to Adobe CC software.
- 42" large format Canon Digital Printer.
- Multi-purpose studios.
- Photostudio
- A range of teaching spaces, for one to one tutorials, through to large seminar/workshop spaces, equipped with smart boards.
- Media services equipment loan store for camera and video camera loans.
- Library and special collections

The location of the Regent's Park campus has significant advantage due to its close proximity to the exclusive Marylebone district and Oxford street areas, which can be used as active research zones throughout the study.

Acland building:

The accommodation comprises two floors, with the second floor containing a comfortable setting and a small kitchenette for use as a social, or small group space. The second floor also houses a study space with a collection of fashion and fashion related books and publications for student use in the open access area.

Mac suites:

Multiple Mac suites equipped with Adobe Creative Cloud software for creating and editing content and designing professional layouts are available on campus, some are reserved as teaching spaces and some are open access.

Photo studio:

A well-equipped photographic studio located in Tuke basement at our Regent's Park campus. The studio includes two shoot bays (black and white) and are set up with professional lighting and 2 sets of Canon 5D cameras. Cameras are also available for students to book out from Media Services.

If you require support or advice with regard to accessing campus facilities, please speak with our disability support officer, so we may address your concerns.

regents.ac.uk/information/student-life/for-current-students/disability-information

Library:

The Library at Regent's supports teaching and learning at the University. Our relevant and extensive collections, flexible study spaces and knowledgeable staff can help you achieve your academic goals. During term time, the Library is open until late in the evenings. During busy exam periods, it is open 24/7. Most areas are fully accessible to people with disabilities and wherever there are challenges we work with individual(s) to overcome, rearrange or support to facilitate good and safe access.

The Library houses an impressive collection of art, design and fashion related books, journals, periodicals and contemporary fashion publications as well as open access PCs and a range of desktop and pod-based learning spaces.

The library subscribes to a number of electronic resources and databases. These include a wide range of eBooks and the following online fashion resources:

- Bloomsbury Fashion Central (comprising Berg Fashion Library, Fairchild Online Library, Bloomsbury Fashion Business Cases and Bloomsbury Fashion Photography Archive)
- Bloomsbury Design Library
- Common Objective (formerly Ethical Fashion Forum)
- Drapers
- EBSCOHost
- Fashion Monitor
- IBISWorld
- Oxford Art Online
- Passport (Euromonitor)
- Statista
- WARC
- WGSN

The library has agreement with British Library Document Delivery Supply to supplement the needs of the users. The students also have access to specialised and public libraries in the area.

Blackboard Ultra:

Regent's uses Blackboard as its virtual learning environment (VLE), where you will find learning materials and content for your modules. You will also submit your coursework online and receive feedback through Blackboard.

Regents App:

To support your studies and time at Regent's, there is a free mobile app which can be downloaded from the Apple or Android stores, which will provide information about the University, the campus and your studies.

IT Labs:

Regent's has IT labs where you can use our computers and there are dedicated areas for you to use your own laptops and tablets. The campus has free Wi-Fi, including most areas of our extensive gardens, so any area can be adapted into a student study space. Regent's is a member of the Eduroam network, so you can connect to this service to access Wi-Fi worldwide.

For more about Regent's learning resources, visit: <https://www.regents.ac.uk/life-at-regents/learning-resources>.

10. Opportunities for personal development planning

Include any PDP built into the course. Indicate how a student can make choices within their course to tailor it to their own needs/career choices, e.g. through elective modules, dissertation topics, language choices, work placements. This section may also include career planning options, personal tutor course and extra-curricular activities.

Industry Focussed

The BA (Hons) Fashion Marketing course is industry focussed, where you will have opportunities to work on real world projects and interact with industry professionals both as guests and also to receive feedback on your work. Through our industry guest speakers students can hear first-hand accounts from industry experts about how they got their big breaks and what their advice is for aspiring industry professionals. Through our industry panel reviews key industry professionals are engaged across different activities delivering critical feedback on student ideas as part of some key modules.

Professional Practice and Portfolio

In "Professional Practice and Portfolio" in Level 6, you are offered the opportunity to create and curate a range of self-promotional material, and prepare an industry-ready portfolio. As part of your professional development, you will analyse your skills, strengths, weaknesses and development opportunities in order to formulate a comprehensive career plan. In addition, you will be encouraged to further enhance your interview, networking and CV writing skills to successfully prepare you for your own future career ambitions.

Extracurricular activities

You will also have opportunity to engage with extracurricular activities on and off campus organised by staff from across Regent's. These include but are not limited to: prominent guest

speakers' presentations, conferences, competitions, university societies, Student Union membership and student representation. Participation in competitions or engagement with societies and Student Union are a great way to develop a host of skills and evidence demonstrating your diverse capabilities and can contribute to fruitful personal development planning.

Careers, Enterprise and Industry

The Careers, Enterprise and Industry team supports students' individual career aspirations through a personalised approach. We partner with students to help them to acquire attributes, tools and skills to be able to make informed decisions and manage their entire career.

Handshake – jobs, employers, events and resources

We've partnered with Handshake – our careers platform – to offer you:

- Careers and enterprise resources – giving you all the information you need to succeed
- Local and international jobs, internships, and placement opportunities
- Networking opportunities with companies of all sizes, as well as start-ups
- Careers and enterprise events and workshops
- The chance to create and build your own profile to personalise the type of content you see, the employers you engage with, and the types of job opportunities highlighted to you.

Placements and internships

Students looking to undertake a placement or internship as part of their studies can receive support in developing their application, as well as advice and guidance when sourcing suitable placement and internship opportunities.

We also offer similar support for students who wish to enhance their learning by undertaking an internship during the summer period.

Careers appointments and drop-in sessions

Students can book an appointment with a career consultant to discuss anything career-related or book some career coaching sessions as a student and/or after they graduate. They are encouraged to engage with the careers team as early as possible in their study. It can take time to gather an array of career management skills, and to be empowered to explore options and plan their next steps.

Careers appointments are booked on Handshake and are either virtual on Handshake or in-person. Appointment types include, but are not limited to, career conversations, entrepreneurship and enterprise, career coaching, placements and Internships, applications feedback, and interview preparation.

The Careers, Enterprise and Industry team has an open-door policy. Students can drop in anytime during business hours to ask a quick question about anything careers, enterprise, or industry related.

Enterprise and entrepreneurship

Regent's is excited to provide a comprehensive, entrepreneurial offer for students and graduates.

This flagship initiative is known as **The Founder's Programme** – a hands-on programme to support students and graduates interested in starting their own enterprise, with tailored guidance, access to live sessions with in-house consultants and guest speakers, mentoring, coaching and experiential bootcamps.

The programme is a dynamic, immersive learning experience where students will build the foundations of their start-up with a global team and get a chance to pitch to investors at the end of the programme – allowing you to network and connect with peers, alumni, industry leaders and start-up founders.

Co-working spaces

Regent's also offers a dedicated co-working space available on campus with an opportunity to work on your business idea while collaborating and sharing ideas with peers. We also have a strong network of partnerships with some of the most noted co-working spaces in the country.

11. Admissions Information

Details of the current entry requirements can be found in the University's Admissions Policy on our website: <https://www.regents.ac.uk/policies>

12. Visas and immigration

At Regent's, you will be part of a truly international community, with the opportunity to make friends and contacts from around the world.

If you require a visa to study in the UK, please visit the Visas and Immigration page on the website: <https://www.regents.ac.uk/admissions/visas-immigration>

13. Assessment and progression regulations

You will be assessed on how well you are achieving the intended learning outcomes at different stages throughout your time of study at Regent's

In order to continue with your studies, there are minimum requirements to be met in order to progress to the next level of your course. The current progression regulations are published within the Academic Regulations on our website at the link below. These are subject to review and amendment each year. We will let you know if there are any major changes to the regulations that may affect you.

<https://www.regents.ac.uk/policies>

You will be provided with guidelines on what you need to achieve in each assessment to ensure you receive a good mark. A generic description of each grade is available at: [regents.ac.uk/about/regents-teaching-exchange/learning-teaching/assessment-framework](https://www.regents.ac.uk/about/regents-teaching-exchange/learning-teaching/assessment-framework)

14. Award criteria

To complete your course, you will need to achieve 360 credits for an undergraduate degree.

You must also meet the requirements of any specific regulations as stated under the Assessment and progression regulations section.

For further details on award requirements, please see the Academic Regulations, available at on our website at the link below. The regulations are subject to review and amendment each year. We will let you know if there are any major changes to the regulations that may affect you.

<https://www.regents.ac.uk/policies>

15. Methods for evaluating and improving the quality and standards of teaching and learning

All quality assurance policies and procedures are found in the University Academic Regulations. The current versions are available at the link below. The regulations are subject to review and amendment each year. We will let you know if there are any major changes to the regulations that may affect you.

<https://www.regents.ac.uk/policies>

Regent's University London operates a number of institutional processes for ensuring and enhancing its academic quality standards. These include: course (re)validations, course modifications, course monitoring, student feedback systems and external examining.

Course (re)validations

The University has a formal process to approve a new course or reapprove an existing course of study. This involves a panel of academics from within and outside Regent's to ensure that your course is of appropriate academic standard and of a high quality.

Course modifications

We listen to your feedback and make changes to your course as appropriate. You will be consulted on any significant changes to your course which may affect the outcomes of your study. All changes to courses or modules are subject to approval through Regent's academic governance structures.

Course monitoring

In order to ensure courses continue to meet their academic and professional aims and objectives, Directors of Content/Course Leaders are required to prepare an annual monitoring report (AMR). The reports include module feedback as well as external examiner reports and responses. They are reviewed at faculty and institutional level.

Student feedback systems

Students play a key role in the University's processes for enhancing the quality of its educational provision and broader student experience. There are multiple ways for you to provide feedback on your experiences at module level (e.g. through questionnaires), course level, through student representatives and at course committees. Final-year undergraduate students (Level 6) are invited to take part in the National Student Survey (NSS).

External examiner reports

External examiners ensure that Regent's standards and quality processes are appropriate and are of a standard comparable to those of other higher education institutions. There are two types of external examiners. One reviews subject level assessment and the other reviews institutional level processes and attends the progression and finalist boards.

An annual external examiner report is produced at the end of every academic year at levels 5, 6 and 7. These are made available to students through the AMRs.

16. Curriculum map

This table indicates which study units assume responsibility for delivering the learning outcomes detailed in Section 5.

	Module	LO1	LO2	LO3	LO4	LO5	LO6	LO7	LO8	LO9	LO10
Level 3	FND301 Critical Thinking				x					x	x
	FND302 Cultural Understanding		x							x	x
	FND303 Politics, Society and Citizenship				x	x					x
	FND304 Writing for Success at University					x			x		
	FND305 Communication					x		x			
	FND306 Creativity & Entrepreneurship		x								x
	FND307 Cultural and Creative Industries		x		x						x
	FND308 Making Use of Data				x	x	x				
	FND311 The Creative Designer			x				x	x	x	
	FND312 The Creative in Context			x		x			x	x	
Level 4	FSM409 Fashion Marketing Principles and Practice	x	x			x		x			
	FSM408 Fashion Images		x		x		x		x		
	FSM411 The Fashion Consumer and Trends					x	x		x	x	
	FSM410 Fashion Society and Culture				x	x		x			x
	PER401 Learning Perspectives			x			x			x	
	IAE401 Exploring Industry and Entrepreneurship	x		x	x						

Level 5	FSM507 Fashion Branding		x			x	x		x		
	FSM508 Fashion Marketing Communications		x			x		x	x		
	FSM509 Innovation in the Fashion Environment	x			x		x				x
	IAE501 Experiencing Industry and Entrepreneurship: Entrepreneurial Challenge	x	x	x						x	
	IAE502 Experiencing Industry and Entrepreneurship: Industry Challenge	x	x	x						x	
	IAE503 Experiencing Industry and Entrepreneurship: Placement	x	x	x						x	
Level 6	FSM609 Fashion Futures	x			x		x	x			
	FSM610 Professional Practice and Portfolio			x	x	x			x		
	IAE601 Major Project I			x	x					x	x
	IAE602 Major Project II		x	x		x			x
